

Restoration Concept

Giving ourselves away is the motivation that compels us to exist as Restoration Concept.

About Restoration Concept

We are an alliance of people that formed in October 2005 with a belief and a mission to shape the culture around us. The central belief is that people matter. The mission is to help people really believe that they do.

All of us actually are meant to live with a purpose and a meaning and a hope and a future. Somewhere along the way, that belief gets shaken, whether by actual circumstance or disillusioned perspective. Things can happen that cause people to forget their purpose, think life is meaningless, lose their expected hope, and see no future worth living for.

We believe that inside all of us is the wiring to connect with something and someone beyond us that actually enables us to see our value in relation to and in the midst of all this humanity. The mission is to serve people and remind them of that connection so that we can all live the way we were meant to live – restored.

Find out more about the concept as well as how you can connect and serve.

Our Purpose

We hope that others matter to you. Life is just not what it was intended to be when we are all that we think about. There has to be a greater purpose in this life than personal advancement and accomplishment. In fact, how does living really count if it is not for something beyond me?

What is your purpose in life? Think about it. Do you live only for you, or do others matter?

It is. Our purpose is to love and serve and help one another. This is not just the mantra of those non-profit organizations and world peace groups. It should be the motivation for all of us as humans. Restoration Concept holds to 4 distinct purposes. At the heart of all 4 is the foundation of love and service for the local and global community.

4 Purposes

1 to raise funds, invest them, and create return through entrepreneurial ventures in order to give away 100% of the net profits for various forms of community service on a local and global level

2 to create marketplace connection points that bring people together in order to better love and serve the community around us
heart
find purpose

3 to shape the business culture of our community to actually begin to see their businesses as influencers instead of just money-makers and to synergize efforts to love and serve the community around us

4 to provide financial counseling and entrepreneurial support for individuals and families desiring to establish themselves in the marketplace and as difference makers in their community.

Marketplace Connections

Restoration Concept seeks to provide marketplace connection points for our community in which people can both unite to serve and be served. It's a significant outlet for the entrepreneurial spirit that exists in the alliance of people who make up Restoration Concept.

Right now, House Blend Café is our pilot marketplace connection point. It is a café in Ocoee, FL that serves coffee, tea, smoothies, breakfast, lunch, dinner, and gourmet desserts. And, it's really good!!! Check it out at www.houseblendcafe.com. The hope for House Blend Café is to provide a model for marketplace connection through business practice and community service.

Future marketplace connections include more House Blend Cafés, a health and sports complex, a salon, a character-building and educational supporting hang-out spot for middle and high school students, and more!!! Stay tuned. AND, if you have ideas for marketplace connection or would like to support any of the above, **email us** and let us know.

Coffee & conversation are highlights of daily culture nowadays. We spend almost all of our lives in the marketplace.

Community Service

Local & global community awareness has never been at a higher level than it is right now.

AIDS. Poverty. Homelessness. Hunger. Unclean water supply. Sex trade. Illiteracy. The list goes on and on. How could all of the needs be met? We believe that there's enough people and resources to meet them, and we want to do our part – be a sentence in the grander story. We are trying to carve out our niche and figure out the various ways we can serve as we move and grow together.

Here in our Central Florida community, we are trying to do just that. Check out some of the ways that we are trying to serve.

Community Projects

In April 2006

We helped to renovate a gentleman's home in east Winter Garden, FL. We painted, removed trash and yard waste, fixed up a few things, and replaced his rotting door. He does not have proper running water. YEP, it is in the Orlando Metro area. We hope to help remedy that.

In August 2006

We helped to provide school supplies for the impoverished students of Whispering Oak Elementary School in west Orange County, FL.

In August 2006

We are helping a family in need relocate their belongings to a new home.

Future projects include home renovations, efforts in the inner-cities of Winter Garden and Ocoee, assistance to existing community service organizations, and healthcare for the under-insured and non-insured.

Financial Planning

It's an old cliché. Give a man a fish, & you change his day. Teach him to fish, you change his life.

Improper money management is one of the more crucial dilemmas of American society. For many people, the excuse is more than materialistic greed. There truly is an honest ignorance as to what to do.

We are finding that financial counseling and entrepreneurial assistance are major needs among the many talented families who struggle to make it, but dream of making a difference in their community.

Restoration Concept hopes to provide services for these families to assist in this very significant element of daily life.

Restoration Concept also highly recommends the services of Legacy Advisors to those who desire the help of a qualified and experienced firm for investment planning and asset management. In fact, they are a proven financial organization who not only helps people make money, but also encourages people to give of what has been given.

They share the same heart with Restoration Concept and support us to continue to give ourselves away through community service.

Syn-er-gy

is a convergence of business leaders through conferences and roundtables bringing together: thoughts, conversations, and resources in order to sharpen one another, serve our community, and shape the culture of the marketplace

Restoration Concept has created partnerships both locally and nationally to provide the best learning environments in the marketplace. We provide conferences, team-building experiences, roundtable discussions, consultation, and networking opportunities led by local and national business leaders.

We commit to you that your experience with SYNERGY will be worthwhile. In fact, it will be so worthwhile, that it will even provide your business the opportunity to link with like-minded companies and small businesses to make a difference in your local community.

synergy

The 1st two Synergy events are coming:

LEADING @ a Higher Level 2006 | *November 14th_11:00 to 5:00*

Google Adwords 101 Marketing Seminar | *December 4th_7:00 PM to 9:00 PM*

Who We Are

The Restoration Concept team is made up of business and community leaders from the Central Florida area.

All of us as individuals share the same desire to make a difference as part of something bigger than ourselves.

The team was formed in November 2005 and met for the first time November 28th, 2005.

The responsibilities of the Restoration Concept Team include:

- providing counsel and logistical wisdom for the entrepreneurial efforts of the concept
- inserting vital input into the vision and future of the concept
- meeting monthly for update, evaluation, and direction
- approving and providing accountability for all budgetary activities
- serving in and through marketplace connections
- assisting fund raising and investment development

Restoration Concept as a company is owned by Westpoint Fellowship Church (WFC). They are a church family that exists to be the church, do life together, and give themselves away. WFC believes that a church should actually mean something to its community on a much more significant scale than just Sunday morning.

That's one of the reasons why WFC has such a major focus on loving and serving people in the marketplace. WFC fully supports and believes in the mission of Restoration Concept. You can find out more about them by going to www.westpointchurch.org

Alliance

is a group of like-minded businesses and organizations

...who work together to serve our community and expand the influence of the Restoration Concept. The alliance is growing. If you would like to learn more about growing with us, please email us for more information.

Some of those in our alliance have made significant financial commitment to the future of the Restoration Concept. Others provide much needed wisdom and counsel as we move forward. There's no formal arrangement. It's just linking hearts and resources together to make a difference in our community. Please consider being a part of the Alliance.

Want to contact us?

We'd love to hear from you.

Restoration Concept
5056 Beach River Road
Windermere, FL 34786
